# FINISHES

# WHITE OAK FINISHES

We painstakingly wire brush our White Oak by hand to highlight the beautiful grain. Then, all layers are hand applied to achieve the final finish. Our goal is to achieve an organic finish that complements the natural beauty of the wood with each piece. All pieces are finished in a satin sheen top coat.

# WALNUT FINISHES

Walnut is an elegant hardwood with beautiful grain. Our Walnut finishes are subtly wirebrushed to produce an organic texture to the grain. This process leaves the soft grain low and the hard grain high and creates a scratch-resistant surface. All pieces are finished with a high-quality satin sheen top coat.

# INTERIOR IRON & STEEL FINISHES

We love working with these materials. There's not much our ironsmiths can't do! Our iron and steel finishes represent organic colors and textures of natural patinas that occur over time.

# EXTERIOR IRON & STEEL FINISHES

Black Powder Coat finish is currently the only iron finish offered suitable for exterior use. This finish is available on selective interior pieces as custom. Please contact Customer Service for more information.

Black Powder Coat  
Smooth surface with exterior flat top coat

## CAST STONE FINISHES

Our lightweight Cast Stone is cast with a subtle sand texture that emulates organic limestone. The exception to this is Chalk White which is a smooth, flat white finish. All are finished with several coats of high-quality penetrating natural stone sealer.
